

BIOSCOPE RESOLVE - HIGHEST RESOLUTION BIO-AFM

NOVOTNÝ Dušan

*Measurement Technic Moravia Ltd., Zastavka u Brna, Czech Republic, EU***Abstract**

The aim of this workshop is to show the highest-resolution AFM for the life-science. You will be surprised with easy-of-use and huge amount of possibilities for the characterisation not only bio-samples. We will demonstrate the combination of the inverted fluorescence microscope with advanced scanning probe microscopy techniques as well as force spectroscopy on cells.
